Historical Digital WBRs

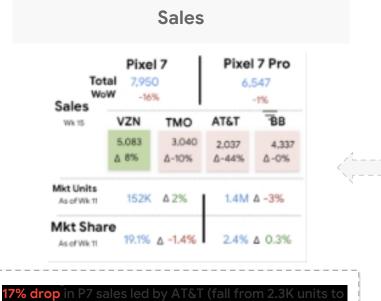

Evaluation Warning: The document was created	Execution Opportunities / Gaps										
Call out	Detail	First Reported on									
Low / No placements for 'Get For Free' promos on AT&T	P7 Pro and P7 offers not present on AT&T Deals pages	27 Feb Pixel continues to be absent on AT&T landing pages									
P7 Pro flash sale on VZN competes with i14 Plus, leading to lower overall promo effectiveness	 P7 Pro and i14 Plus launched an attractive 1W flash sale offer 'Get for FREE' w equivalent visibility (11 - 17 Apr) However, only i14 & i14 Plus saw strong growth in traffic, Pixel saw limited WoW uplift in traffic and sales 	<u>17 Apr</u>									
	Other Insights										
Call out	Detail	Suggested Action									
Marginal improvement in Sales on VZN	 Pixel unique discounts on VZN further improve by upto \$180 for two consecutive wks, no TI reqd Apart from i14 Plus, no major comp promo changes 	Study performance of strong non Trade-in performance (FREE / \$5/mo promos) of Pixel / Competition on carrier									
Samsung continues to gain unequivocal share on Android on T-Mobile and AT&T	 SS is regaining Android share & dominating placements, while Pixel has low visibility 	Negotiate with AT&T & T-Mo to offer equal / comparable Android placement per carrier agreements									
S22 promos gain over S23, and A54 over A53	 \$23 promotions dropped on Unlocked (Samsung.com, and BestBuy), while \$22 promos increased on BestBuy Potential move to clear \$22 inventory A54 promos strengthen on T-Mo, as A53 goes OOS 	Monitor Samsung stock status and promotions closely									

Sales Drivers

- Sales grew slightly on VZN for both P7 and P7 Pro, potentially owing to the flash sale
- Pixel performed better WoW with regards traffic, and overall SoT improved; however i14 /i14 Plus and S23 saw stronger traffic growth

VZN sold higher units of both P7 and P7 Pro

Good Pixel placement on Verizon at par with competition, improved placement on T-Mo, while lagged behind on ATT

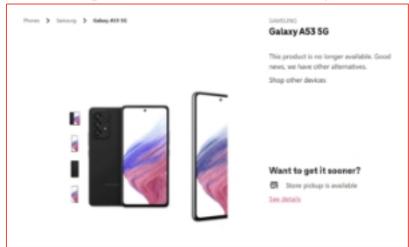

T-Mobile

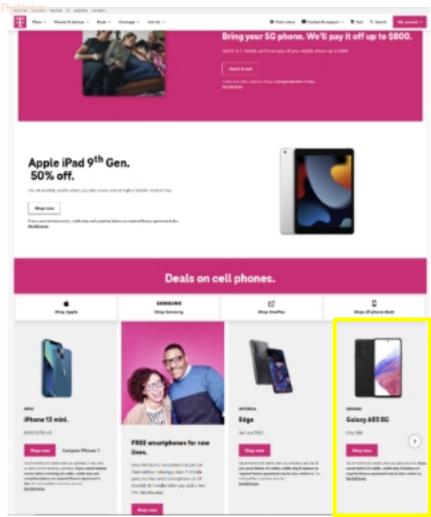

T-Mo: Strong Promotion on Deals Page, improvement in P7 placement (6F->5F) Evaluation Warning: The document was created with Spire.Presentation for Python

Samsung A53 unavailable (OOS) on the T-Mobile website, however the carrier - partner still has a carousel placement on the bottom of the deals page (Desktop)
